

Ordering Business Cards via AAA Storefront

Our ordering process is fairly simple and straight forward. We like to think of it is intuitive. But like all printers we

sometimes throw **"printerspeak"** out without even realizing the confusion we cause. So if that happens, don't hesitate to ask questions, or add notes

to the order. Rest assured there are people on the other end, who look at every order we print!

<https://aaa.presswise.com//login.php/>

To navigate to our store you need to navigate to your secure page, and log in with your personalized credentials.

We do try to keep things simple.

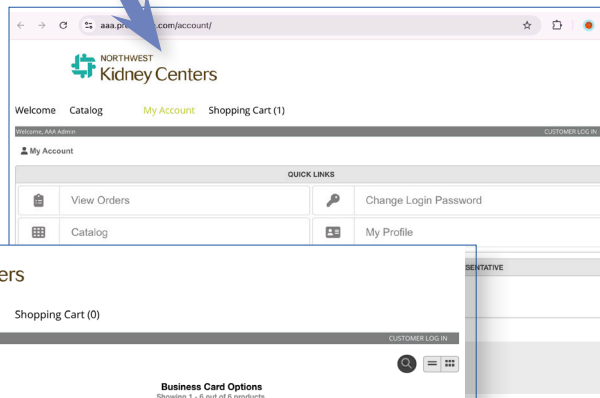

loginID:
Password:

We also suggest that once you log in you take the opportunity to change that password to something slightly more secure

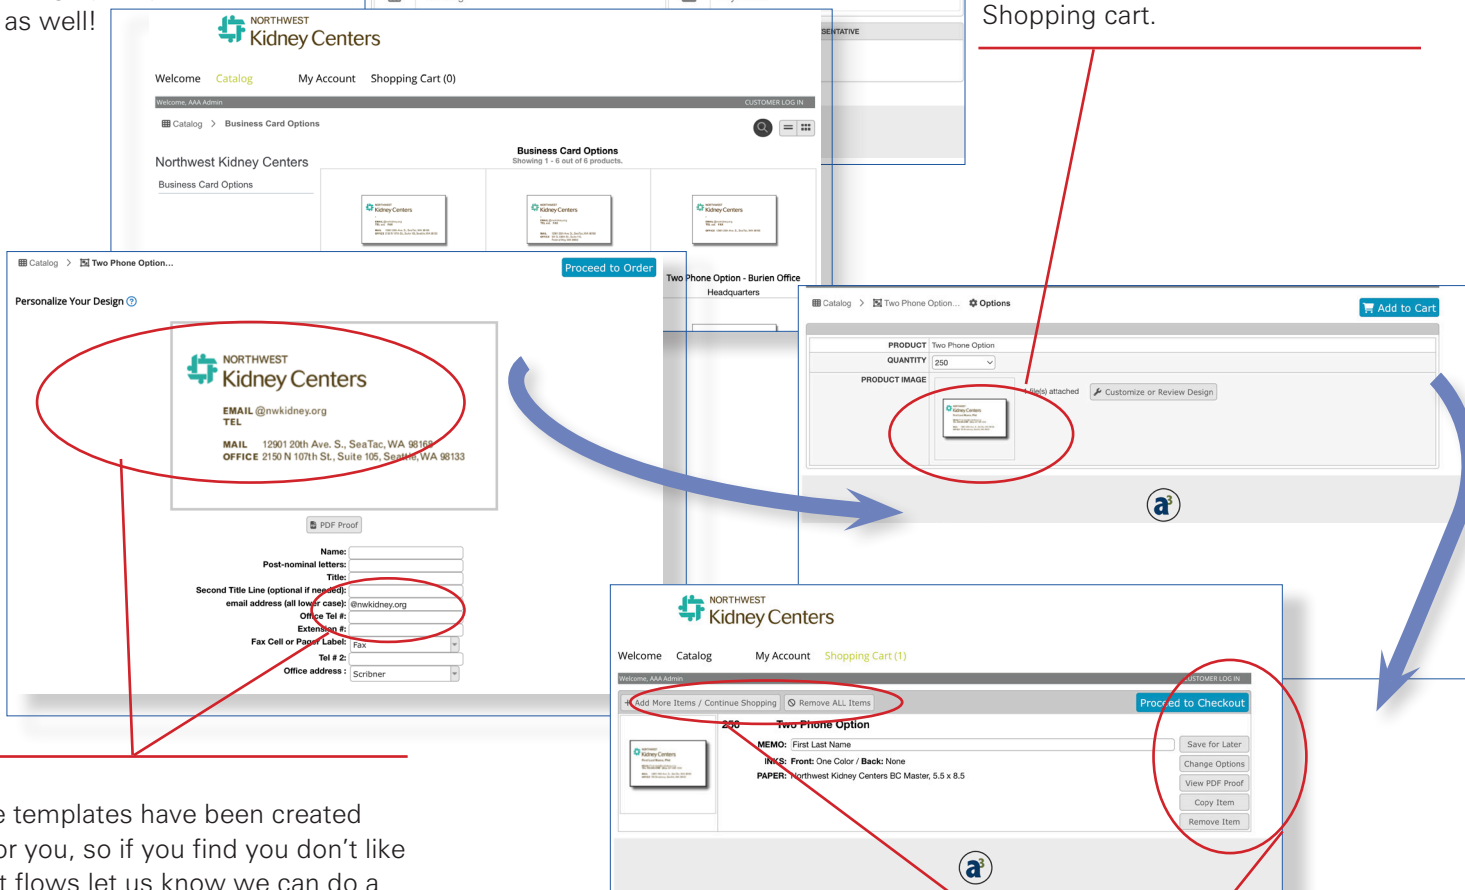

<https://aaa.presswise.com//login.php/>

Welcome to your storefront, feel free to poke around. From here you can review old orders, go to the catalog and order custom items we've set up for you. You will also notice you can change your password here as well!

After proceeding to the order you have the opportunity to choose quantity. Then proceed to the Shopping cart.

These templates have been created just for you, so if you find you don't like how it flows let us know we can do a great deal of customization.

You also have the opportunity to download/view a PDF proof. Note you will get another opportunity to so as well.

**Always feel free to contact
Bruce Baxter if you have
questions or concerns**

This provides the second opportunity to download a PDF proof. You can then Save the order for later if you wish to circulate the proof internally.

From this point check out is about as easy as deciding where to send the finished product

Important Note: Saved files will expire in about one week.
