

1 Valley Computer Instructions

Valley Computer Instructions

1) **Logging and getting started**

a) Enter User ID and Password

b) Department is---VMC IP DIALYSIS [100222]...

i) Go to System Lists....

(1) Go to !Units.....

(2) Find unit patient is located on

Or

(3) Go to Dialysis...

(a) Will work only for “Active” dialysis orders (patient will show up on the Dialysis list once orders are released)

c) Find patient and select (Double click)

i) Chart opens

2) **Getting Orders**

a) Go to “RN Dialysis” Tab.....

i) Select “Sign and Held” Tab.....

ii) Verify there are no dialysis related orders needing to be released—if so release orders

Select “Release”.....

iii) After verifying no orders need to be released go to Dialysis Orders and expand the orders view...

▼ Dialysis Orders

Dialysis Orders	
Start	
09/20/12 2015	▶ Sliding Scale Dialysate Potassium Concentration (Always order in Addition to Either Standard or Custom Bath) Once Discontinue Comments: Sliding Scale dialysate potass...
09/20/12 2015	Discontinue All Dialysis Phase of Care Orders After LAST Scheduled Treatment in Series Dialysis Discontinue
09/20/12 2015	If Heparin Allergy or HIT do not use Heparin & Call MD Once Discontinue
09/20/12 2015	No Patient Prime Once Discontinue
09/20/12 1900	▶ Hemodialysis w/Ultrafiltration Every Tue, Thu, Sat, Sun Discontinue
09/20/12 1852	Call NWKC for New Dialysis Patient (1-855-292-3045) Once Discontinue

b) Go to “Patient Summary” tab.....

i) Acknowledge Orders that were released by you

2 Valley Computer Instructions

3) Treatment/Therapy Documentation

a) Go to Doc Flowsheets.....

i) Document treatment information in the following sections

(1) *HD treatments:*

- (a) **Hemodialysis Pre-Treatment**
- (b) **Treatment**
- (c) **Hemodialysis Post Treatment**

(2) *PD treatments:*

- (a) **Peritoneal Dialysis Pre-Treatment (PD on)**
- (b) **Peritoneal Dialysis (used for mid-treatment checks)**
- (c) **Peritoneal Dialysis Post-Treatment (PD off)**

(3) *CRRT treatments:*

- (a) **CRRT Pre-Treatment (CRRT filter/solution documentation)**
- (b) **CRRT (CRRT machine settings)**

(4) *Plasmapheresis/TPE:*

- (a) **Plasmapheresis Pre Teratment**
- (b) **Plasmapheresis Treatment**
- (c) **Plasmapheresis Post Treatment**

4) MAR

a) Document all Medications and Saline boluses given during treatment in the MAR..

- i) Scan NS bag for every bolus given
- ii) Scan all other medications

5) Access Documentation

a) Select Add LDA to document Catheters and Accesses....

6) Document blood transfusions per Valley policy—

7) Documenting Progress note

a) Select Notes

i) New Note.....

ii) Type—Progress.....

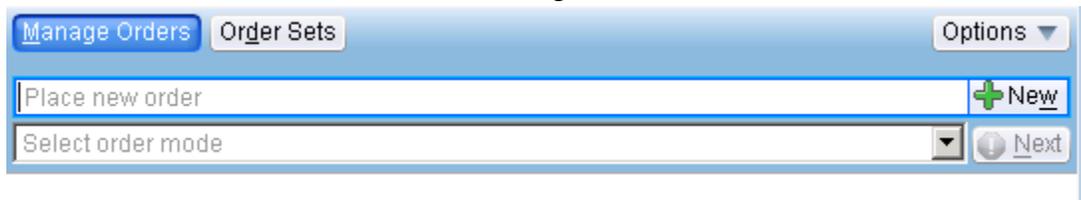

iii) Service—Nephrology....

3 Valley Computer Instructions

- iv) “Insert Small Text”..... 
- (1) Select the template note you want
 - (a) VMC Hemodialysis Progress Note
 - (b) VMC CRRT Progress Note
 - (c) VMC Peritoneal Dialysis Progress Note
 - (d) No TPE note—use blank form
 - (2) Use F2 Button to enter move forward in document a
 - (a) F2 will highlight section to enter information
 - (i) ***Right Click to fill in information
 - (3) Sign off note after completing

8) Placing orders

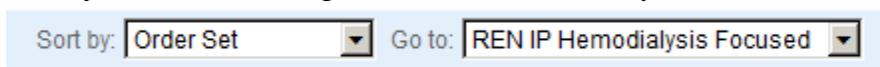

- a) Select Manage Orders..... 
- b) LOOK TO RIGHT SIDE OF SCREEN
- i) Go to Place new order located under Manage Orders and select New

- ii) Place new order

9) Modifying orders

- a) Select Orders..... 
- b) Select Active.... 
- i) Sort by “Order Set” and go to “REN IP Hemodialysis Focused”

- c) Modify Orders by Selecting “ Modify”..... 
- i) Modify each order related to dialysis treatment that needs to be modified

10) Discontinuing orders

- a) Select Orders..... 
- b) Select Active.... 
- i) Sort by “Order Set” and go to “REN IP Hemodialysis Focused”

4 Valley Computer Instructions

c) Discontinue Orders by Selecting “ Discontinue”.....

i) Discontinue each order related to dialysis treatment

11) Patient Charges

a) Clcik on RN Dialysis Tab

b) Ensure you are under the correct treatment tab for the treatment you will be charging for

c) Click on Charge Capture—Dialysis Charges, Hospital.
