

1 Auburn Computer Instructions

Auburn Computer Instructions

1) Logging and getting started

a) Enter User ID and Password

b) Department is---AMC DIALYSIS [1901535...

Department: AMC DIALYSIS [1901535] 

i) Go to Dialysis....

 Dialysis

ii) Find patient and select (Double click)

(1) Chart opens

2) Getting Orders

a) Go to “Manage Orders” Tab.....

Manage Orders

b) Select “Active” Tab.....

Active

i) Sort by “Order Set” and go to “Nephrology Hemodialysis”

Sort by: Order Set  Go to: NEPHROLOGY HEMODIALYSIS ORD... 

ii) Orders will sort for your review

NEPHROLOGY HEMODIALYSIS ORDER SET

0.9 % NaCl (NS) bolus solution 100-200 mL
 100-200 mL, Intravenous, at 400 mL/hr for 15 Minutes, Q15MIN PRN contact provider, Starting Sun 7/27/14 at 1230 Until Discontin

0.9 % NaCl (NS) bolus solution 250-500 mL
 250-500 mL, Intravenous, at 1,000 mL/hr for 15 Minutes, PRN FOR HEMODIALYSIS, Starting Sun 7/27/14 at 1229 Until Discontinue

albumin 25% (human) 250 mg/mL IV solution 50 mL
 50 mL, Intravenous Q15MIN PRN contact provider, Starting Sun 7/27/14 at 1230 Until Discontinued, 50 mL

doxercalciferol (HECTOROL) 2 mcg/mL inj 2 mcg
 2 mcg, Intravenous TTHSU PM First dose on Sun 7/27/14 at 1800 Until Discontinued, 1 mL

HEMODIALYSIS
 Routine, CONTINUOUS, Starting Sun 7/27/14 at 1230, Until Specified, Total treatment time: 4 hours UF Only time: 0 hours Target goal we
 Access: Fistula Access site : Left upper arm Needle size : 15g BFR = 350 mL/min DFR = 600 mL/min Dialysate: Na = 140, K = Use Slidin
 modeling: none UF modeling: none Other meds: none Labs during dialysis (Dialysis RN to place orders): none

HEMODIALYSIS TREATMENT SCHEDULE
 STAT, CONTINUOUS, Starting Sun 7/27/14 at 1230, Until Specified, Hemodialysis Treatment Schedule: Daily

heparin 1000 units/mL inj
 500 Units/hr = 0.5 mL/hr, Other, PRN line maintenance, FOR HEMODIALYSIS, Starting Sun 7/27/14 at 1231 Until Discontinued

heparin 1000 units/mL inj 1,000 Units
 1,000 Units, Other, PRN line maintenance, FOR HEMODIALYSIS, Starting Sun 7/27/14 at 1230 Until Discontinued

NOTIFY DIALYSIS NURSE
 Routine, ONCE, Sun 7/27/14 at 1230, For 1 occurrence, Contact dialysis nurse and call pharmacy to prepare for hemodialysis

(1) Verify Treatment Schedule

HEMODIALYSIS TREATMENT SCHEDULE

STAT, CONTINUOUS, Starting Sun 7/27/14 at 1230, Until Specified, Hemodialysis Treatment Schedule: Daily

2 Auburn Computer Instructions

3) **Treatment/Therapy Documentation**

- a) Go to Doc Flowsheets..... 
- i) Document treatment information in the following sections
- (1) *HD treatments*: (see example on pages 6-8 for HD)
 - (a) **Hemodialysis**
 - (2) *PUF*:
 - (a) **Ultrafiltration Dialysis**
 - (3) *PD treatments*:
 - (a) **Peritoneal Dialysis**
 - (4) *CRRT treatments*:
 - (a) **Acute Dialysis CRRT**
 - (5) *Plasmapheresis/TPE*:
 - (a) **Plasmapheresis**

4) **MAR**

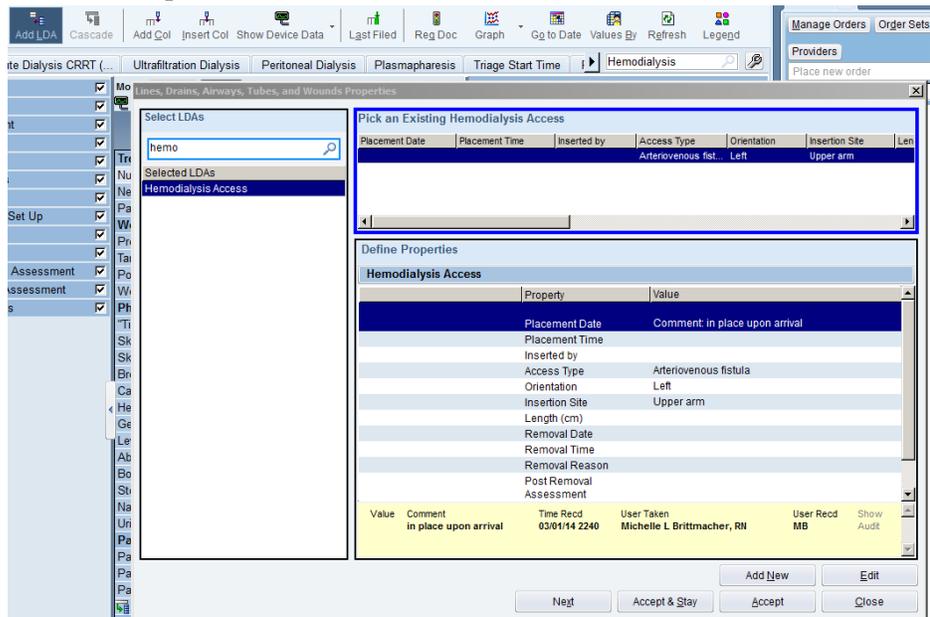

- a) Document all Medications and Saline boluses given during treatment in the MAR...

- i) Scan NS bag for every bolus given
- ii) Scan all other medications

5) **Access Documentation**

- a) Select Add LDA to document Catheters and Accesses.... 
- b) Type in "Hemo" in the search box.
- i) Select Hemodialysis Access
 - (1) Complete information

The screenshot shows a software interface with a menu bar and a toolbar. The 'Add LDA' button is highlighted. Below it, a window titled 'Lines, Drains, Airways, Tubes, and Wounds Properties' is open. It has two panes: 'Select LDAs' and 'Define Properties'. In the 'Select LDAs' pane, a search box contains 'hemo' and 'Hemodialysis Access' is selected. The 'Define Properties' pane shows a table of properties for 'Hemodialysis Access'.

Property	Value
Placement Date	Comment: in place upon arrival

3 Auburn Computer Instructions

6) Documenting Blood Transfusions

- a) Document blood transfusions per Auburn policy-under Blood Administration Tab

7) Documenting Progress note

- a) Select Notes

- i) New Note....

- ii) Type—Progress.....

- iii) Complete blank progress note

- (a) No Template available
(2) Sign off note after completing

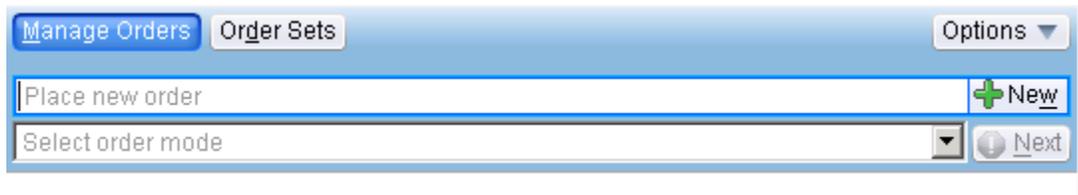

8) Placing orders

- a) Select Manage Orders.....

- b) LOOK TO RIGHT SIDE OF SCREEN

- i) Go to Place new order located under Manage Orders and select New

- ii) Place new order

9) Modifying orders

- a) Select Manage Orders.....

- b) Select Active....

- i) Sort by “Order Set” and go to “Nephrology Hemodialysis”

- c) Modify Orders by Selecting “Modify”.....

- i) Modify each order related to dialysis treatment that needs to be modified

- d) Afterwards go to “Patient Summary” tab.....

- i) Acknowledge Orders that were modified by you

10) Discontinuing orders

- a) Select Manage Orders.....

4 Auburn Computer Instructions

- b) Select Active.... 
- i) Sort by “Order Set” and go to “Nephrology Hemodialysis”
-  
- c) Discontinue Orders by Selecting “Discontinue”.....  
- i) Discontinue each order related to dialysis treatment
- d) Afterwards go to “Patient Summary” tab..... 
- i) Acknowledge Orders that were discontinued by you

11) Patient Charges

- i) All Charges are done via paper charges
- ii) Check with unit secretary to verify if patient is inpatient or outpatient

Auburn Pre-Hemo

Document pre treatment information as follows:

Under Treatment document:

- Nurse providing treatment
- Nephrologist
- Patient ID verified

Under Weight document:

- Pre-Treatment Weight

Treatment	
Nurse providing treatment (First Last)	<input type="text"/>
Nephrologist
