- **Locations:** Use backflow prevention devices for HD TX's. Plumbed rooms: Medical 428, 450, 453, 458. ICU 2nd floor of original building 210 and 215. PCU 3rd floor of original building 316. Hemodialysis can be done in any of the rooms.
 - Unit locations
 - o 4 Medical
 - \circ 4 Geripysch
 - o 3 PCU
 - o 3 Rehab unit
 - o 2 ICU

Use backflow prevention valves in all rooms.

<u>Charge slips</u> ONLY for PCU dialysis charges. Charge sheets are to be placed in a white binder (second photo) near HUC called the PCU Patient charge book. The HUC will enter the charges; you do not need to enter them.

For All other units • You need to ask the HUCs on the unit for a dialysis charge sheet, fill it out appropriately and give it back to the HUC. The HUC will enter the charges; you do not need to enter them.

How to fill out the charge sheet:

You will need to place a patient label on the sheet. Indicate--date, your name, nephrologist and On/Off time and patient room number.

All HD/PUF treatments will be charged as Routine Hemodialysis---if you have a disrupt, , treatments greater than 4 hours, ordered and started between 2200-0600 and delays greater than 30 minutes, use Citrasate, or do a PUF you will make a notation in the Note section of the charge sheet.

For PD--All Setup and Visits will be charged via the CCPD charge on the charge sheet---indicate on the Note section if it's an "On" or an "Off".

For TPE--will need to indicate on the Note Section of the Charge Sheet--there is no option to choose TPE. For the time being we would like everyone to continue to use our charge slip along with Multicare's charge slip.

Please send in both charge slips so we can be sure that we can reconcile any difference between them.

OTHER INFO
