

# Clarity Monthly Update April 2020

## General Information

---

The 3<sup>rd</sup> Sunday of every month Visonex updates Clarity with fixes to issues reported and enhancements based on client feedback. Following is a general overview of those fixes and enhancements included in the April 19, 2020 Update.

## What's Fixed in Clarity

---

1. **Combined Treatments Post Weight.** When a patient has a combined treatment (e.g., CCPD and a PD Office Visit) the Post Weight did not always properly process in the bills. This has been fixed.
2. The **Unsigned Orders Report** will no longer list a medication order if the order has no **Adm Type** box is check-marked (for example, for home medication prescriptions).
3. The **Phy Rounding** tab in **Real-Time Charting** is no longer populating with the wrong date.

## What's New in Clarity

---

1. **Treatments>Primary Nephrologist Dashboard** now has links to the following screens:
  - a. **Patient Chart View**
  - b. **Hospitalization & Consultations** menu and the details for the most recent hospitalization or emergency room visit
  - c. **Dialysis Accesses** menu
  - d. **Real-Time Charting** can be accessed by clicking on the patient name
2. **Real-Time Charting Pre Treatment, Nursing Assessment, Phy Rounding and Post Treatment** tabs have a number of changes. For more details, please see the "Real-Time Charting Changes" Powerpoint that will be posted in: KNET>Clarity>Tip Sheets.
