Clarity Monthly Update October 2020
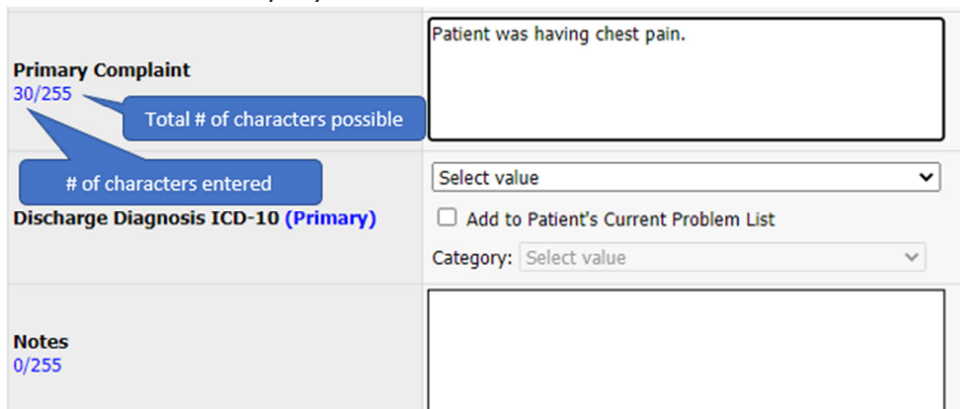

General Information

The 3rd Sunday of every month Visonex updates Clarity with fixes to issues reported and enhancements based on client feedback. Following is a general overview of those fixes and enhancements included in the October 18, 2020 Update.

What's Fixed in Clarity

1. The **Unsigned Orders** reports now matches orders listed in Organization>E-signature.
2. The **Medications Label** report will now include medications that have an end date of today.
3. When selecting Change Order the previous physician that was selected in the **Ordered By dropdown** is now properly displaying.
4. In **Patient>Immunizations,** trying to open an immunization did not always work. All immunizations are now opening as expected.
5. The error message some users were getting when logging out has been fixed.

What's New in Clarity

1. The **Hospitalizations & Consultations** form "Add to Current Problem List" box is no longer defaulted as check-marked when entering a Hospitalization. The text fields also now display character counters
