Mileage reimbursement = \$0.625 per mile effective 7/1/22																			
***information based on MapQuest (rounded to nearest mile) updated 7/24/20 1st route option																			
All expense reports must list #miles																			
For Port Angeles travel (not included in above chart) - there are 2 major routes of travel. One is mileage to/from ferry including ferry tolls.																			
The other is all mileage via highway 101 or across the Narrows toll bridge. NKC assumes the employee will find the most effective route																			
taking in travel costs and staff time to make the trip.
