# Clarity Monthly Update
# January 2023

## General Information

On a monthly basis Visonex updates Clarity with fixes to issues reported and enhancements based on user feedback. The following is a general overview of those fixes and enhancements that will occur on Sunday, January 22.

## What's Fixed in Clarity

1. **PD Prescription:**
   - Visonex fixed an issue in PD prescriptions that prevented staff from selecting the Final fill in the Cycles/Exchanges section of new orders.

2. **PD Prescription:**
   - Visonex updated the Fill Volume range in Cycles/Exchanges from 5000 to 7000.

3. *Password Reset Code email, give instructions:*
   - Visonex has added the option to Print Password Reset Code instructions. They also added instructions for when a Password reset code is e-mailed to a user.

4. **Insurance Policies-Increase character limit for Authorization number:**
   - Per client feedback, Visonex increased the character limit to 25 characters for the Authorization number found at **Registration>Insurance Information>Policies.**

5. **Nursing home information update:**
   - Visonex updated the Registration>Nursing Home History to accommodate sending Nursing Home information to EQRS.
   - Staff will now need to complete the Reason when completing the form.
   - The Clinic Nursing Home History Report will now include the Reason for the Nursing Home.

| Nursing Home | ABC Nursing Home ▼ | Phone (920) 496-0600 | | | |
|---|---|---|---|---|---|
| Reason | Select value ▼ | | | | |
| Start Date | Select value | End Date | | 🗓 🕓 | |
| Comments | Permanent Resident | | | | 0/255 |
| | Short Term Care/Rehabilitation | | | | Add |
| | Other | | | | |

6. **Date of Next Dose not updating on Parent order if medication was postponed:**
   - This issue was fixed in December.

7. **Insurance-Policy-Company needs to be in alphabetical order:**
   - The company name in insurance policies is now appearing in alphabetical order. This was fixed in December.

**8. RTC>Nurse Assessment**
- Infection Assessment has been modified.  Most fields have been removed.
- Any infection will only be charted in **Patient>Patient Infections**
- Remaining items:
    i. Patient Infection Link,
    ii. Review Suspected or Confirmed Infections (last 90 days),
    iii. Review Anti-infective medications (last 90 days)

-

**9. RTC>Nurse Assessment**
- Edema will now be required.
- Dementia changes
- Alert and Oriented will be split into two parts.
- Oriented will have radio buttons to indicate how oriented the patient is and specifically whether oriented to Person, Place, Situation and Date/Time.

- T

## 10. RTC>Post Treatment
- Nurse post assessment will have the same Dementia changes to the Alert and Oriented item and Edema will be required.

## 11. RTC>Post Treatment
- **Patient ended treatment early?** Will be moved up near Total Treatment Time with a comment box for reason.

-

12. **Immunization- Record Historical "Not Administered"**
   - If an immunization was not administered, staff can now easily document this by selecting "Record Historical Immunization" and then choosing status of "Not Administered."
