

Clarity Monthly Update September 2023

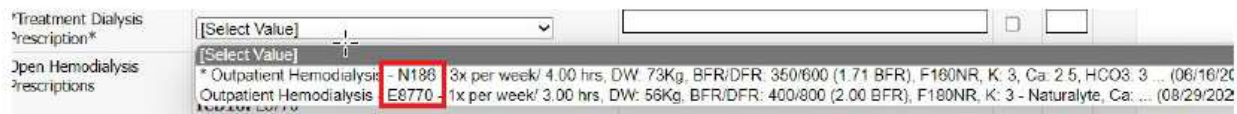

General Information

On a monthly basis Visonex updates Clarity with fixes to issues reported and enhancements based on user feedback. The following is a general overview of those fixes and enhancements that will occur on Sunday, September 17, 2023.

What's New in Clarity

1. Dialysis Prescriptions – Will Now Display ICD 10 Code

- Visonex has added the ICD 10 Code to the dialysis prescription previews.
- This will make it easier to know which Rx to select when a patient is having an extra treatment for the week.

RTC and VM – Prescription Display

Open Hemodialysis Prescriptions	<p>Prescription Type: Outpatient Hemodialysis</p> <p>Start Date: 08/29/23 09:21 End Date: current</p> <p>ICD10: E8770</p> <p>Primary Prescription: No</p> <p>Duration: 3.00 hrs -- 3 hrs 0 min</p> <p>Dry Weight (Kg): 56.00</p> <p>Bath: 3 - NaturalyteK 2.5 CitrasateCa 40.0HCO3</p> <p>RED: 400</p>
---------------------------------	---

2. KDQOL – Printable Survey – Remove 1st page

- Visonex removed the cover page from the Printable KDQOL that can be given to a patient to be filled out by hand.

3. Organization Management – Improved Alert Messages for Email Contact

- When the primary email address is changed in the account, Visonex/Clarity will now send an email to an old email address as well as to the new email address.

4. Organization Management – New ADW Developer Role

- Visonex added a new “ADW Developer” role that should be added to the ADW users that query the ADW information.

What’s Fixed in Clarity

5. Monthly Labs All – Show Most Recent Labs First

- Visonex update the Monthly Labs: All report to display most recent last first. This was part of a project to ensure all reports display labs in a consistent manner.

Monthly Labs: All
Dialysis Center - @@@@ Test Clinic 1 @@@@

Report Date: 09/01/2023 07
Nephrolo

Date Range: 01/01/2023 - 12/31/2023

Lab Name	08/16/2023	08/02/2023	07/19/2023
Hgb	10.8	10.3	10.5
Hct	30.7	30.1	30.4

6. Hemodialysis Treatments Recorded – Separate by Clinic

- Prior to the fix, if a user used Advanced Mode and included more than one clinic, data from different clinics would be mixed together
- Now each clinic will be displayed separately.

7. Notes Report – Printing a lot of White Space

- The Notes report has been updated to remove a lot of blank space that resulted when staff used the Enter key when typing their note.

8. Immunizations – Unable to Change/Fix Immunization When Entered via “Add to Recent, Unbilled Treatment.”

- Immunizations added via Add to Recent, Unbilled Treatment are now able to be modified.
- The user will need to unpost the treatment from Treatment History and then change the information in RTC/VM>Medications/Imn tab.

9. Dialysis Prescription – Corrected Spelling of Potassium

- Visonex corrected the misspelling of Potassium in the Hemodialysis Prescription form.
