

Name: _____

Week 7 Learning Objectives (Tech):

FOLLOW PATIENTS FROM START TO END/PRIORITIZATION OF TASKS & TIME MANAGEMENT TECHNIQUES

Clinical Unit Focus:

- The trainee will begin to manage patient care from start of dialysis to end of dialysis, while practicing technical skills. Have trainee take **one or two patients** from start of dialysis to end of dialysis
 - Focus on time management and workflow
- Trainee continues to perform access care including CVC care & needle cannulation and removal
- Trainee continues to perform lab draws and associated lab vendor workflows
- Trainee continues to perform Pre, intra, post-dialysis data collection and reporting to a nurse
- Trainee continues to perform initiation and termination of dialysis treatment (coupling/uncoupling).
- Trainee monitors patients during treatment and documents appropriately
- Trainee continues to perform setting up and tear down of machines
- Trainee continues to perform environmental cleaning of stations
- Trainee continues to perform EMR documentation

By the end of this clinical week the new employee will continue to:

- Troubleshoot most common HD machine alarms
- Have a basic understanding of patient complications and tech level interventions
- Assess the access, and access & de-access CVC and perform dressing changes
- Assess the access, select puncture sites, place needles and tape per NKC procedure
- Collect lab specimens and follow appropriate lab workflows
- Pull needles (one at a time), stop bleeding, apply dressing, and document in EMR
- Trouble shoot access issues (AVF/AVG/CVC) within tech scope of practice
- Gather pre, intra & post dialysis data and share with nurse as needed
- Prepare supplies & syringes for patient "ON" & "OFF"
- Set up the machine for dialysis per NKC procedure
- Couple and uncouple patients per NKC procedure
- Clean the dialysis station and turn over for next patient
- Gather and document pre, intra & post dialysis data including access care in EMR (Electronic Medical Record)
- Demonstrate appropriate hand disinfection techniques and PPE use

What is going well/what did not go well? *(Debrief the day/week of clinical training.)*

What areas need improvement? *(Areas of focus during the next day/week of clinical training.)*

Trainee's personal goals for the week: *(Trainee-what do you want to focus on?)*

Preceptor's personal goals for the week: *(Preceptor-what do you want to focus on?)*
