

Name: _____

Week 3 Learning Objectives (Nurse):

TREATMENT DATA GATHERING/ SET-UP MACHINE/PREPARE SUPPLIES/EMR

Clinical Unit Focus:

- Continue setting up machines **following NKC procedure**
- Pre, intra, post-dialysis data collection and reporting to a nurse
- Monitor patients every half-hour or more often as needed
- Determine appropriate fluid removal needs of patients with preceptor assistance and approval
- Continue to prepare supplies and draw up medications
- Observe preceptor providing access care, cannulation, and needle removal while describing each step, **following NKC procedures**
- Trainee continues to perform tear down of machines and environmental cleaning of stations post dialysis
- Trainee continues to perform EMR documentation

By the end of this clinical week the new employee will continue to:

1. Gather pre, intra & post dialysis data and share with nurse as needed
2. Prepare supplies & syringes for patient "ON" & "OFF"
3. Set up the machine for dialysis per NKC procedure
4. Determine appropriate fluid removal needs of patients and program machine accordingly
5. Clean the dialysis station and turn over for next patient
6. Gather and document pre, intra & post dialysis data in EMR (Electronic Medical Record)
7. Demonstrate appropriate hand disinfection techniques and PPE use

What is going well/what did not go well? *(Debrief the day/week of clinical training.)*

What areas need improvement? *(Areas of focus during the next day/week of clinical training.)*

Trainee's personal goals for the week: *(Trainee-what do you want to focus on?)*

Preceptor's personal goals for the week: *(Preceptor-what do you want to focus on?)*
