

ENSURING ACCESS TO KIDNEY CARE
**Seattle Clinic at
Yesler Terrace**

Meeting our patients where they are

As a community not-for-profit healthcare provider, Northwest Kidney Centers is committed to ensuring ongoing access to care for all kidney patients. Our \$57 million flagship kidney care center in downtown Seattle will ensure access for patients for generations to come.

Through our state-of-the-art facilities and innovative programs and services, we provide compassionate, dignified care to one of the most vulnerable patient populations in our community.

OUR
PATIENTS

50%+

More than half identify as
people of color

20%

About 20% of in-center patients
report being housing insecure

1/2

Nearly half live below the
poverty line

INVESTING IN COMMUNITY KIDNEY CARE

300+ patients

The clinic's 46 dialysis stations will have the capacity to provide in-center dialysis treatment to more than 300 patients.

Home patient support

The clinic's nine home dialysis training rooms will provide training and monthly support for 125 patients who dialyze at home.

One-of-a-kind care

Northwest Kidney Centers patients have access to our embedded Palliative Care program, specialized pharmacy services and on-site clinical trials with the University of Washington.

Community education

The clinic will have dedicated space for chronic kidney disease classes for patients and their families.

PUTTING THE PATIENT EXPERIENCE FIRST

- Dedicated off-street plaza provides a safe arrival point for patients
- Secure two-story parking garage with bicycle access has ample parking for patients and staff
- Patient treatment areas have views of Downtown Seattle and Elliott Bay
- Terraced gardens provide respite areas for patients and staff
