

Clarity Monthly Update July 2025

General Information

Renvio regularly updates Clarity with fixes to issues reported and enhancements based on user feedback. The following is a general overview of those fixes and enhancements that will be released on Sunday, July 13, 2025. You will see these updates starting Monday, July 14.

What's New or Fixed in Clarity

1. Infection Form – Increase comments and update date of cultures

- Renvio has increased the comments from a 250-character limit to 1000. It expands as typing in.
- Updated the Cultures to pull within 30 days of suspected infection date instead of 15.

Current Anti-Infective Medications	
Associate current medications to this Infection	
	<div>Comments</div> <div></div> <div>0/250</div>

2. Registration – General Information -Adding Transient Comments

- Registration > General information has been updated with a new Transient Comments box. Utilize this box instead of writing comments or notes directly within the lines of the mailing or physical address.

Transient Information			
Address	910 N.E. 24th Street		
City	Boca Raton	State	FL
		Zip Code	33431
Phone			
Transient Comments	Florida residence typically used from December through March		
	61/500		

3. Real Time Charting – Pre Treatment Tab –Access Assessment

- The dressing options for selection during CVC dressing changes are updated. Transparent occlusive type is added to capture Tegaderm and IV3000.
- The CVC dressing types have been added to Secondary Access Assessment and are required.
- If no secondary access exists, N/A should be selected.

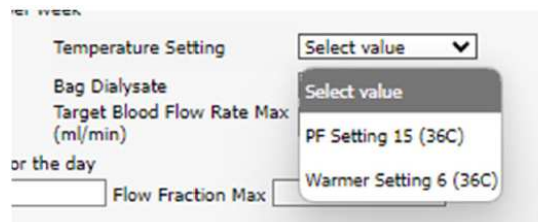

4. PD Visit Management

- Renvio added Type of Adapter and Serial Number
- Previously documented type of adapter and prior serial number will flow to the checklist, when available.

Issues / Concerns	<input type="radio"/> Yes <input type="radio"/> No

Previous Type of Adapter	
Adapter intact	<input type="radio"/> Yes <input type="radio"/> No
Previous Adaptor Inact	06/10/2025 Yes
Line/adaptor change	<input type="radio"/> Routine <input type="radio"/> Non-routine
Previous Line/adaptor change	03/26/2024 Routine
Adaptor serial #	
Previous Adapter Serial #	03/26/2024 23E05H93
Transfer set intact	<input type="radio"/> Yes <input type="radio"/> No

5. NxStage Prescription – Add Temperature Setting option

- The Temperature setting was added to the Prescription form.

The screenshot shows a portion of the NxStage Prescription form. A dropdown menu for 'Temperature Setting' is open, displaying two options: 'PF Setting 15 (36C)' and 'Warmer Setting 6 (36C)'. Other visible fields include 'Bag Dialysate', 'Target Blood Flow Rate Max (ml/min)', 'or the day', and 'Flow Fraction Max'.

6. Missed Treatments – New reason added: Residual Kidney Function Assessment

- New reason was added for missed treatments related to patients readmitted post-transplant for delayed graft function

7. Reports

- **Hemodialysis Treatments Recorded – patient total incorrect**
 - Renvio fixed an issue with the Hemodialysis Treatments Recorded Report where the clinic total was not displayed correctly when running for multiple facilities.
- **Billable Items and justification Report not running**
 - Renvio fixed an issue on the Clinic Report-Clinical Billable Items & Justifications and Patient Report- Billable Items & Justifications where if Heparin Sodium (porcine) was wasted the report would not generate.

8. Clinic History – Loss Update

- Renvio has updated the patient Clinic History to only require the Transfer Discharge Subcategory for Network Event 6A=LOSS: Transfer out to another ESRD MC unit.

9. ADT – Updates for TIME to Clarity ADT for NKC

- The ADT between TIME and Clarity has been updated. It can receive updates for Phone 2 (work phone), Cell phone, Marital Status, and Suffix.

10. EQRS – Depression is not crossing to the Submission queue

- Renvio has fixed an issue where some newly created Depression checklists were not crossing to the EQRS submission queue.

11. WAIIS – WAIIS interface update

- If the patient's race is left blank, we will now send the race as blank instead of Unknown for the WAIIS interface.
