

# TB Test Documentation

As of April 19, 2021, NKC will no longer chart TB Test (PPD Administration) and TB Test Results in the Immunization Screen.

This tip sheet was updated May 17, 2021, because nurses will document the Administration and Results in new fields within TB test, PPD test screen. *This is why the dates in the example Treatment Alert screen shots do not match the screen shots for Tests & Procedures.*

These procedures will be documented in **Patient>Tests & Procedures**.

There will be a single Test/Procedure scheduled for both the documentation of the Administration and the Result of the PPD test.

Refer to the TB Testing and Surveillance for Patients policy in Policy Manager for:

1. Timing and frequency of Tuberculin Skin Testing
2. How to administer PPD
3. How to read a TST result
4. TST interpretation
5. Follow-up on positive results

This tip sheet pertains only to scheduling and documenting in Clarity.

## ORDER ENTRY

Schedule the PPD to be administered and read

Go to **Patient>Tests & Procedures**

Do NOT enter the PPD/Tubersol as a medication order.

**Tests & Procedures**

Patient: [REDACTED] (Age 63)  
Primary Nephrologist: [REDACTED] MD  
Broadway Kidney Center - Outpatient Chronic - 1st Shift Mon-Wed-Fri [Change](#)  
Medical Record# [REDACTED] Code Status: DO NOT RESUSCITATE

## TB ADMINISTRATION ENTRY

Administer the PPD and document the administration in the Test & Procedures screen.

**List of Tests**

Test Name	Order Date	Completed Date	Received Date	Cancel/Refused Date	Reason
TB test_PPD	05/17/2021				

Click on the test name to open it up.

**Add/Edit Patient's Test**

Test Name: TB test, PPD  
 Ordering Physician: WINROW, ROBERT MICHAEL  
 Test Dates: Order Date: 05/17/2021, Completed Date: , Received Date: , Cancelled/Refused Date: , Cancel/Refuse Reason: Select value  
 Billable: ☐  
 Justification: \*Z111 - Encounter for screening for respiratory tuberculosis  
☐ Add to Patient's Current Problem List

**Administration**

Category: Select value  
 Date: 05/17/2021, Product - Manufacturer: Tubersol - 0.1ml - Sanofi P, Lot #: 123xyz  
 Adm Site: Left lower forearm, Administered By: Stauffer, Edward Clinical Informatics, Exp Date: 11/08/2022

**Results**

Date Read: , Results (mm): , Interpretation: Select value  
 Result Read By: Select value

**Comments**

PPD Scheduled to be administered 5/17/21. PPD administered to Left forearm 5/17/21 at 0822. PPD must be read between 0825 on 5/19/21 and 0820 on 5/20/21.

Complete the fields for the Administration section.  
 Write a comment stating specifically when the PPD was administered. It must be read 48-72 hrs after administration.

**Submit** **Delete**

Last Updated: 05/17/2021 08:12 Updated By: Stauffer, Edward Clinical Informatics

Enter an End Date on the first Treatment Alert for administering the PPD

Create a new Treatment Alert to notify floor RN to read the PPD.

**Treatment Alerts**

Start Date: 04/15/2021, End Date: 04/15/2021, Note: 4/14/21: Administer PPD on 4/15/21 so it can be read on Saturday, 4/17. Stauffer, Edward Clinical Inf

**Add New** 1 of 1

**Update Treatment Alerts**

Start Date: 04/17/2021, End Date: 4/19/2021

Note: 4/15/21: PPD administered to left volar forearm at 0715 on 4/15/21. Read the PPD between 0720 on 4/17/21 and 0710 on 4/18/21.

You can enter an End Date (day after the 72 hr point) so the Treatment Alert ends automatically

**Add**

Treatment Alerts	Allergies: *No Known Drug Allergies - <input type="checkbox"/> <b>4/15/21: PPD administered to left volar forearm at 0715 on 4/15/21. Read the PPD between 0720 on 4/17/21 and 0710 on 4/18/21.
